In the referenced final Office Action, the Examiner refers to three affidavits (of Mitzi, Tsuei and Dinger) submitted by applicants to overcome the rejection under 35 USC 112 for a lack of enablement. The Examiner's comments are at (paragraph (d)(iv) page 7, 5 lines from the bottom to page 8, 4 lines from the bottom. The Examiner states:

(d)(iv)(1) "Those affidavits do not set forth particular facts to support the conclusions that all superconductors based on the applicants' work behave in the same way and that one skilled in the art can make these superconductors without undue experimentation."

(d)(iv)(2) "Those affidavits do not overcome the non-enablement rejection."
